

Notification Letter on the Improvement of Product Quality Indicators

Cooperates with China Jushi Company limited.

We adhere to the spirit of Quality First and Customer Foremost and have always

concentrated on the quality of our products, and the technical development and innovation of products, constantly improving the quality indicators of our products and the improvement quality indicators of our products.

Technical Improvement

1. Technical Improvement: The technical indicators of the product will be improved from $\pm 5\%$ to $\pm 4\%$. After this improvement, all qualified working products will have a variation of $\pm 4\%$.

Direct Working Products

1. Minimum variation: The minimum variation of the product will be improved from $\pm 5\%$ to $\pm 4\%$.

for 960, 960A and 980A.

2. **Breaking strength:** The indicator will be improved from >0.40 N/ton to

>0.50 N/ton for 960A.

3. **Change diameter:** The diameter variation will be improved from $\pm 5\%$ to $\pm 3\%$ for the regular specifications of 960A.

Chopped Strands Products

1. **Compressive strength:** The compressive strength will be improved from $\leq 0.13\%$ to $\leq 0.10\%$ for 900A, 900C, 900E, 910, 910E and 950A.

2. **Compressive strength:** The compressive strength will be improved from $\leq 0.15\%$

to $\leq 0.10\%$

for the diameter variation will be improved from

1. **Area weight:** The area

weight/ton specification

2. **Breaking strength:** The breaking

$\leq 0.10\%$.

3. **Transverse tensile strength:** Will be improved for 90

4. **Longitudinal tensile**

specification.

When buying

The diameter variation will be improved from $\pm 5\%$ to $\pm 4\%$.

1. **Area weight:** The

area weight will be improved from $\leq 0.10\%$ to

2. **Water content:** The

$\leq 0.7\%$.
